SUMMARY

Experienced Blockchain Developer with over 4 years of experience in designing and developing decentralized applications (dApps) on the Ethereum blockchain. Skilled in implementing smart contracts using Solidity and collaborating with cross-functional teams to integrate blockchain solutions. Strong expertise in developing front-runner trading bots, payment gateways, and decentralized marketplace platforms. Proficient in Go, JavaScript, Solidity, Ethereum, and other blockchain technologies. Seeking a Blockchain Developer position to leverage skills in DeFi Protocols and Solidity to support innovative solutions at a dynamic company.

EXPERIENCE

Blockchain Developer

Blockchain Innovations Corp.

📅 05/2022 - Present   📍 Toronto, Canada

- Enhanced investor's portfolio by 20% by developing a leading trading bot using Solidity and Node.js.
- Led five Self-Sovereign Identity projects, culminating in the design of a groundbreaking new product.
- Enabled transactions worth over $500k monthly by integrating a payment gateway with the Ethereum network.

Freelance Blockchain Developer

Ethereum Experts Group

📅 02/2018 - 05/2022   📍 Dallas, TX

- Developed a front-runner trading bot for a private investor with Solidity and Node.js.
- Handled different SSI projects and helped design a new product from the beginning.
- Constructed a payment gateway to integrate an existing payment platform with the Ethereum network.

Blockchain Intern

Hyperledger Solutions Group

📅 03/2017 - 02/2018   📍 Vancouver, Canada

- Assisted in the development and testing of a blockchain-based supply chain management system
- Gained experience in implementing blockchain consensus mechanisms and designing secure blockchain architectures
- Participated in the creation and deployment of smart contracts on the Hyperledger Fabric platform
- Collaborated with the team to identify and address technical challenges and optimize blockchain performance

STRENGTHS

Problem-Solving Skills

Ability to tackle complex blockchain-related challenges with analytical thinking and creativity.

Effective Team Collaboration

Skilled in working collaboratively in cross-functional teams and communicating technical concepts efficiently.

Passion for Innovation

Dedicated to staying updated with the latest trends and technologies in the blockchain industry.
